

BU Analysis

This directory contains statistical analysis of the BU files of the Brazilian election (2022/10/02), separated by state (UF) in Brazil.

- BU stands for "Boletim de Urna" (Ballot Box).
- UF stands for a state in Brazil.

All the analysis are based on **public available data** of the Voting Machines of the election in Brazil from the TSE website : <http://resultados.tse.jus.br>

- TSE stands for: "Tribunal Superior Eleitoral" ("Superior Electoral Court").

./sp (São Paulo)

- ./sp/bu-statistics--sp--\$METRIC.csv : a CSV file for each analyzed metric.
- ./sp/bus.csv : A CSV file with information of all the BUs used in the analysis.
 - *This file allows you to check the data with the TSE website and the results of the analysis.*
- ./sp/ANALYSIS-SP.md : the description of the insights and anomalies found.
 - ./sp/ANALYSIS-SP.html : HTML version.
 - ./sp/ANALYSIS-SP.pdf : PDF version.
 - ./sp/ANALYSIS-SP-pt_br.html : HTML version (automatic translation: *en* to *pt_BR*).
 - ./sp/ANALYSIS-SP-pt_br.pdf : PDF version (automatic translation: *en* to *pt_BR*).
- NOTE: The state of São Paulo represents 27 million of votes from the 123 million of votes in Brazil

./mg (Minas Gerais)

- ./mg/bu-statistics--mg--\$METRIC.csv : a CSV file for each analyzed metric.

./ba (Bahia)

- ./ba/bu-statistics--ba--\$METRIC.csv : a CSV file for each analyzed metric.

./rj (Rio de Janeiro)

- ./rj/bu-statistics--rj--\$METRIC.csv : a CSV file for each analyzed metric.
